Trip of the Month

Starting in 1954, TMR offered "Trips of the Month," exclusively for Explorer Units. TMR provided program equipment, including skis, sleds, aquatic gear, rifles, archery and woodslore tools, as well as eating utensils, beds and mattresses. Meals and snacks were included. Overnight accommodations were available in Aquehonga Lodge, Ihpetonga Village Dining Hall, or the Ranachqua Blockhouse. The Exploring Unit provided their own transportation to camp and operated under their own leadership. They could run their own program or participate in the planned program.

Not enough of the first issue, Yellow with orange feathers were made and there were a lot of complaints. The orange one was made about the same time. Due to the complaints about the yellow one not being available a second order of yellow was made during the summer of 1977. It came back unintentionally with red feathers but that is how one can tell the difference.
