**General Information:** Groups intending to earn this award pin during a weekend campout at TMR should notify the Director of TMR or the GNYC Camping Department well in advance, so that sufficient wood tools, supplies and an assigned project will be provided once they arrive in camp.

Groups intending to earn this pin during TMR summer camp should notify their camp staff while in camp, so that sufficient wood tools and supplies will be provided. A list of needed trail-work projects will be provided upon request.

Picking up litter along the trail is NOT an acceptable project. The hours of trail-work does not include traveling to or from the trail-work site. Typical trail-work projects include: erecting trail markers, removing or cutting downed trees, trimming excessive vegetation & low-hanging branches, removing branches from the trail, filling in or constructing bridges in muddy sections, any other projects authorized by the TMR Camp staff.

All groups must send to [trailworkphotos@tmmuseum.org](mailto:trailworkphotos@tmmuseum.org) a minimum of six GPS-tagged photos of the trail-work project being completed. Include the Troop number, date of trail-work, contact person name and contact e-mail address.

**Check one of the two boxes indicating how you completed the trail-work pin requirements, below:**

[ ] **THREE HOURS OF TRAIL-WORK**

While completing the 10-mile hiking requirement for the Ten Mile River Historical Trails award, perform a minimum of THREE hours of trail-work along the hike route. This could be an assigned trail-work project or general trail-maintenance work (i.e. determined along the trail).

[ ] **SIX HOURS OF TRAIL-WORK**

Complete an assigned trail-work project at TMR totaling a minimum of SIX hours of trail-work over a single weekend (during off-season camping) or a week at TMR summer camp.
